## Conference grants for junior researchers from Inclusiveness Target Countries

The COST ES1308 ClimMani is pleased to announce that we have been allocated funding to support the participation of **PhD students and Early Career Investigators** (up to 8 years from the award of their PhD) from Inclusiveness Target Countries (ITC) at international science and technology related conferences not specifically organised by the COST Action. Attendance at European conferences is preferred. However, conferences held elsewhere can also be considered.

**Eligibility:** Eligible ITC countries for ClimMani are: Bosnia-Herzegovina, Czech Republic, Croatia, Estonia, Hungary, Malta, Poland, Portugal, Romania, Slovakia, Serbia and Turkey.

The applicant must be engaged in an official research programme as a PhD Student or postdoctoral fellow. The applicant must make an oral/poster presentation at the conference in question and must be listed in the official event/conference programme. The main subject of the oral presentation / poster presentation at the approved conference must be on the topic of the Action and must acknowledge both COST and the Action.

### What is an ITC Conference Grant?

The Conference Grant is a fixed financial contribution which will not necessarily cover all of the expenses related to participating in a given conference. A Conference Grant is a contribution to the overall travel, accommodation and meal expenses of the selected Grantee.

The calculation of the financial contribution for each Conference Grant must respect the following criteria:

- Up to a maximum of EUR 2 500 in total can be afforded to each successful applicant
- Up to a maximum of EUR 160 per day can be afforded for accommodation and meal expenses
- Up to a maximum of EUR 500 can be claimed for the conference fees

In addition, when meal and accommodation expenses are supported by the hosting institution as part of the provisions offered in their conference package, the amount for subsistence afforded to each eligible participant must be deducted from the Grant. Documentary evidence of the conference fee amount must be provided by the applicant.

### Application procedure?

The ITC Grant application portal can be found in eCOST (only for those who are registered in an ITC country!) – below the STSM application portal.

According to COST rules, the application must be submitted **at least 45 days before the conference start date**. The conference must take place before 23 April 2018, which is the end date of COST Action ES1308 ClimMani. Applications can be submitted by logging into e-COST and clicking on the ITC Conference Grants tab.

The tab 'ITC Conference Grants' will not be available in the following cases:

- If the applicant's e-COST profile is incomplete. In this case they will first have to fill in the missing information (affiliation, education details, CV)
- If the primary affiliation of the applicant is not in an ITC country
- If the Education details of the applicant do not demonstrate that they are a PhD student or an Early Career Investigator (post -doc)

#### Grant payment

The grant will be paid upon receipt of a satisfactory scientific report, which needs to include the presentation documents, or links to the document. The report must be submitted no later than 30 days from the end of the participation in the conference. The submission of the report is mandatory or the Grant will not be paid. Late submission, beyond the deadline, can also lead to the cancellation of the Grant.
